The logo for 'usify' is displayed in white on a red rectangular background. The text 'usify' is written in a bold, lowercase, sans-serif font. The 'y' is stylized with a long, thin tail that curves downwards and to the right. A registered trademark symbol (®) is located to the right of the 'y'.

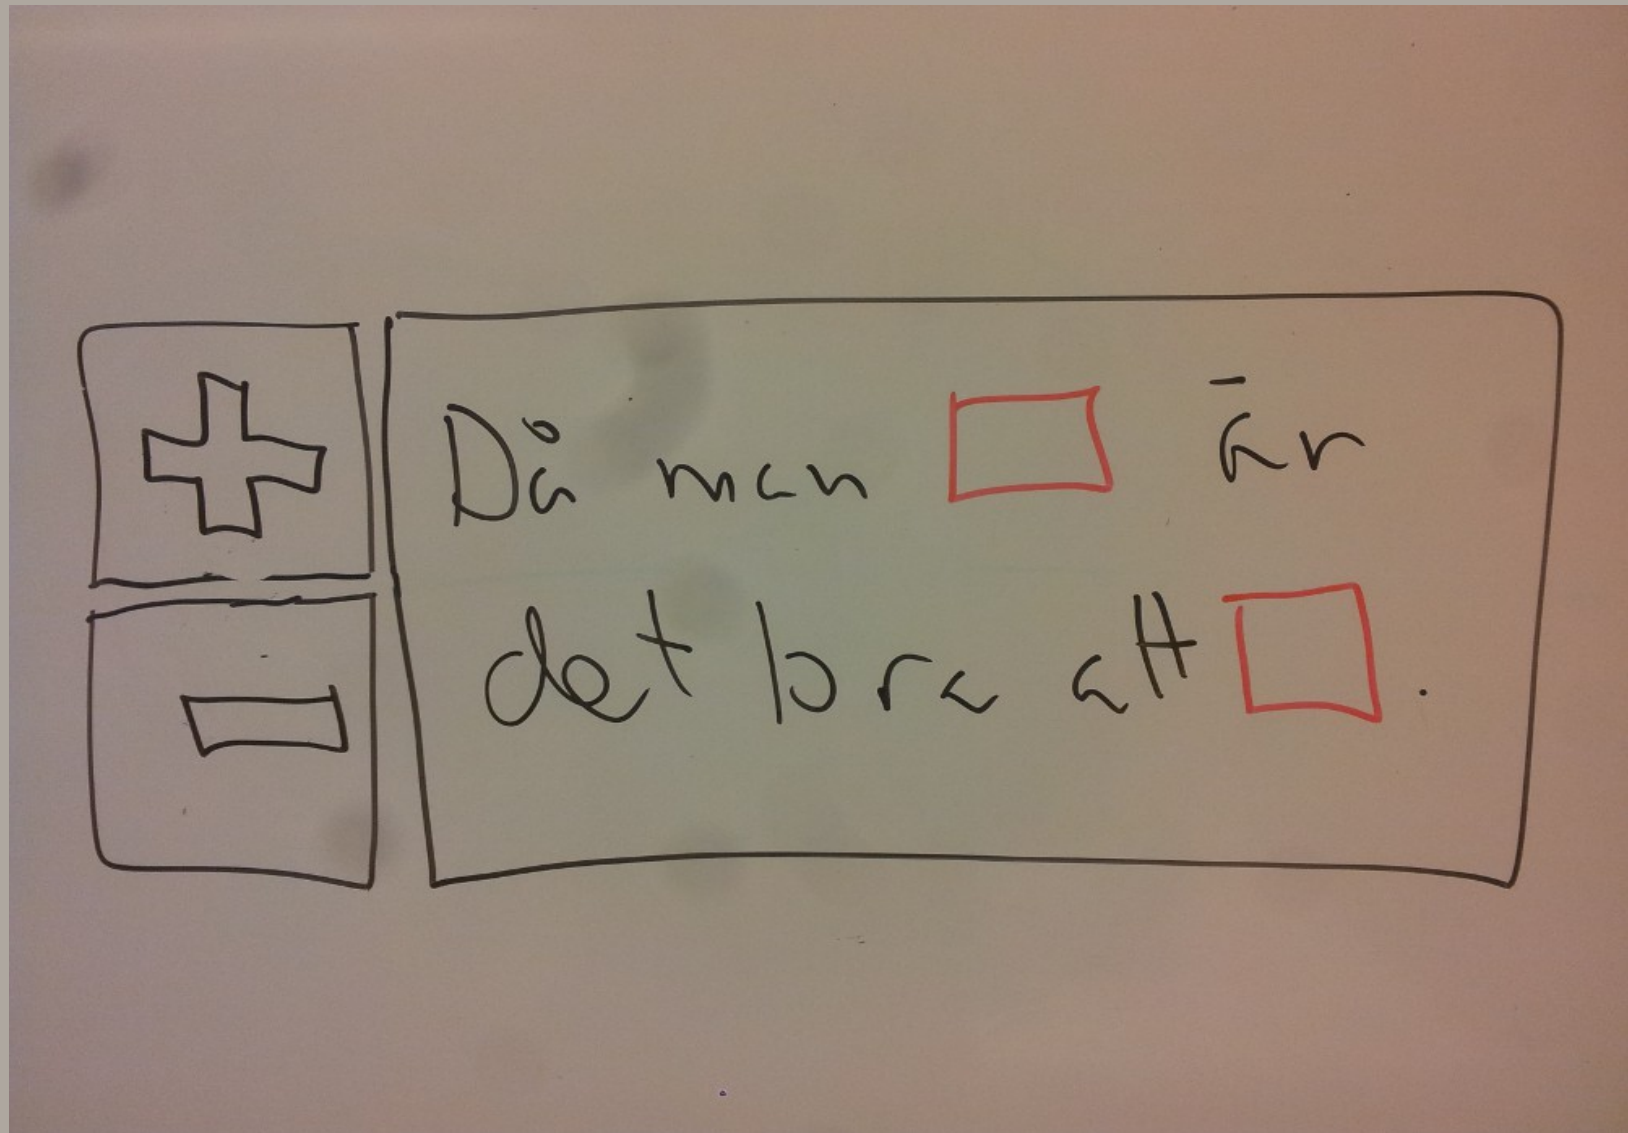

Användarcentrerad utveckling

- Utgår från de behov som användare eller organisation har.
- Behoven kartläggs av UX-are.
- Interaktionsdesigner tar fram prototyper av gränssnittet på grundval av de kunskaper som UX-arnar samlat in.
- Via iterationer tas allt mer förfinade och detaljerade prototyper av gränssnittet fram.
- Gränssnittsprototyperna används av utvecklare för att ta fram systemarkitekturen och hela den tekniska lösningen.

While one is documenting code it is advisable not to state the obvious. Eg:
"set variable to 0".

Vi samlade synpunkter i en kanban

The screenshot shows a Trello Kanban board for a project titled "Presentation, DevLin 2015". The board is organized into five columns: "Ideas", "To do", "In progress", "Test / remittance", and "Done". Each column contains several cards representing tasks or ideas. The cards are color-coded with progress bars at the top. The "To do" column is the largest and contains the most cards. The "In progress" column has a few cards, and the "Test / remittance" column has two. The "Done" column is currently empty. The board is set to "Private" and is owned by "Mikael Ericsson".
